Education

SD Adarsh Public School   **March. 2022 – March 2023**
XII Arts with Maths   *Karnal, Haryana*

Pt Chiranji Lal Sharma Govt Collage / Kureskshetra University   **2023 – Present**
Bachelor of Computer Application   *Karnal, Haryana*

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Computer Networks
- Backend Development
- Frontend Developem
- Computer Architecture

Profile

Full Stack — Mern Developer   **Karnal , Haryana**
Fresher/Entry-Level

- Proficient in **MongoDB, Express.js, React.js, and Node.js** to build scalable and responsive web applications.
- Experienced in full-stack development, including frontend design, backend API development, JWT authentication, and cloud deployment.
- Strong knowledge of UI/UX principles, creating responsive designs using Tailwind CSS, DaisyUI, and other modern frameworks.
- Passionate about building efficient, secure, and user-friendly web applications with real-world impact.

Training

Samsung Innovation Campus – AI Research Agent   **2026 – Present**
Team Project

- Collaborating in a team to develop an AI-powered RAG (Retrieval-Augmented Generation) tool for querying private documents efficiently.
- Implementing LLM-based pipelines to fetch and summarize information securely from internal datasets.
- Applying best practices in backend integration, security, and AI model deployment in a collaborative environment.
- Working under guidance of course mentors, following agile methodology to manage tasks and milestones.

Projects

Resume-Builder | *React, Tailwind Node.JS, Express.Js MongoDb*   **November 2025**

- Designed and developed a full-stack MERN application for creating, customizing, and managing resumes using dynamic templates.
- Implemented secure backend features including JWT authentication, CRUD operations, and role-based access control.
- Integrated theme customization and accent color selection, and implemented image uploads via ImageKit API.
- Leveraged Gemini API to enhance and optimize resume summaries for professional presentation.
- Deployed and maintained the application on Render for scalable full-stack accessibility.

ChatWave | *React, Node.Js Express.Js , MongoDb , getstreamio*   **December 202**

- Designed and developed a full-stack MERN application enabling real-time chat and video calling using GetStream API.
- Processed user inputted information in the back-end of the app to return a subtotal price based on the tickets selected.
- Integrated responsive UI components using DaisyUI for seamless user experience across devices.

Personal Portfolio | *React, Tailwind Css, EmailJs , Framer-Motion*   **january 2026**

- Created a responsive portfolio using React, Tailwind, Framer Motion, and EmailJS.
- Deployed on Render to showcase projects and skills professionally.

Technical Skills

Languages: JavaScript,Python,Java,SQL,HTML,CSS
Tools / FrameWorks: React.js, Node.js, Express.js, Tailwind CSS, DaisyUI, Git, VS Code, Render
Other Skills: MongoDB, JWT Authentication, REST APIs,Responsive Design,
